1. MOM from last meeting

MOM discuss for open points. Working document is in progress, done by Allan Hansen.
We still need to have the time schedule from Finland. Risto will check and send.

Running order, to be put into the Working document, needs to change, see MOM from Finland 2015.

Rule change: We have in the rules that for the meetings the FCI rep and a substitute can enter.

NEW TEXT: Meeting attended FCI rep.

Risto will check where the WORD document is and send this to Allan, who will adjust the text.

2. Common computer program for results

N have a excel-sheet that calculate the Nordic results, this will be used during the event 2016, if it's working then they will share with all 4 countries.

F do have a program as well, Risto will check if it's possibly to share. At the moment the programmer needs to be present, an idea is to pay his travel expense and use him.

3. Standard course time in accordance with new suggested rules in FCI, (best clear round + 15%)

Discussed, to make it easy for all to understand, we will follow FCI rules completely.

4. Increasing the number of teams to 2 per country with 4 dogs pr. Team.

As the Nordic Championship is a Championship, we only have one team / country, else it will be an open event.

We will keep it as today

5. Nordic s rules & cooperation

Mix qualifying results from Nordic countries for moving to the next grade

Decision made by NKU board for years ago. Handler completion in other country will compete under rules in the country but points for upgrading in the classes will be as the rules in home country.

From 2017 NKU-board has decided that champions only need one certificate in another country to become champion.

6. Proposal for new rules Nordic Championship

Already discussed, see point 4

7. How we will develop the NKU Nordic Agility Championship rules in general (process)

Working document will be our protocol and the place where we can have the ideas for changes.

8. How to determine NKU NAC national judge, rules and guidance, selection, approval etc. before announcing public

For the NAC we need to plan 2 years ahead. The organizing countries send in a list with min 3 names.

Judges will be selected during AWC

After the election the invitation to the judge can be send.

The national judge is selected by the national Kennel Club

This judge will design and judge the Individual Jumping class and be contact judge.

As Finland arranges AWC in 2019, they ask for a possibility to change the year for arranging the NAC.
